ST. ALBANS, VT.

TUESDAY, OCTOBER, 27 1868.

## Republican Nominations

FOR PRESIDENT,

ULYSSES S. GRANT.

FOR VICE PRESIDENT,

SCHUYLER COLFAX.

VERMONT.

For Electors at Large—GEORGE W. GRANDEY, of Vergennes; H. FAIRBANKS, of St. Johnsbury.

For Elector—Third District—GEORGE WILKINS, of Snow.

## Reverdy Johnson at Liverpool.

Our readers will remember the great unanimity with which the Senate confirmed the nomination of Reverdy Johnson of Maryland, Minister to the Court of St. James. Our Country had much to expect from him on account of his loyalty to the government during the war, his great experience as a lawyer, and his thorough acquaintance with the wants of the American people by reason of his long continued presence in the National Legislature. But it seems that we are cheated again. Reverdy Johnson is a Marylander, and has lived too near the F. F. V. S. all his life to be of service to a truly Democratic people. In his associations with the aristocratic rulers of England, he forgets the interests of the great mass of the people of the United States, the bone and sinew of the land. The English are great feeders, and love their beef steak and believe in generous dinners washed down with old Port. Reverdy Johnson is captivated with the custom: he falls an easy prey to the seductions of the English. Every thing is pleasing abroad, and he forgets in the flowing bowl, the business upon which he was sent. He dines with the Ship-builder Laird who built the private ships that preyed upon our commerce during the war, and fraternizes with Rebel agents and Rebel sympathizers generally. Here is what the New York Sun says:

Mr. Reverdy Johnson has been undergoing a round of banquets ever since he set foot in England; and at each he has swallowed the toad as if he liked it. To prevaricate is a part of the regular duty of a diplomat. Mr. Johnson has had little experience as an envoy, but he is a lawyer of forty or fifty years' standing, has won many tough suits, and is skillful to give high coloring on any case undertakes. But when he tries to convince the British people, and especially the British Ministry, that the ruling elements of their country and of his own, and the commercial and manufacturing classes of each, have always cherished for one another a depth of affection that surpasses the love of women, he utters what every well-informed person in both nations knows to be false.

Mr. Johnson claimed, in his Liverpool speeches, that he and Lord Stanley had arrived at a common point of agreement on all outstanding questions between the two nations, *excepting claims arising out of the late war*, and Lord Stanley confirmed his statement. This very confirmation makes us suspicious that on all important and controverted subjects England has had pretty much her own way, while our envoy has been turned off with a round of dinners. However, as, on their own showing, all the troublesome matters yet remain to be adjusted, we think they had better put a stopper on their congratulations, and drink their wine in silence till they get through.

Mr. Johnson talks and eats too much, and is not sufficiently select in his companions. At Sheffield he pocketed the insults of Roeluck, who hates and stings America with all the intensity of his waspish nature; at Liverpool he dined with Laird, who built the corsairs that swept our flag from the seas! Let us be thankful that after the 4th of March next we shall have a Minister in England who will better understand what is due to the dignity of his office and his country.

## The Good Templars.

The following communication has been handed up for publication by a worthy citizen of St. Albans, and himself a Good Templar. It seems that the author is not well pleased with the *Messenger's* articles throwing "cold water" on the enterprise. The organization of Good Templars has done a good work in St. Albans, and we wish them God speed, and give their communication a place in our columns.

Editor of the Transcript:

Sir—Your venerable cotemporary, the St. Albans *Messenger*, in its issue of Saturday, the 24th inst., succeeds in getting off another of its compliments,

over the left, for the order of Good Templars in this place. The first of these very encouraging articles appeared on the 17th inst., and, by misstatements and artful insinuations, succeeded in spreading abroad the impression that St. Albans Lodge, No. 32, was rapidly decreasing in numbers, and was just on the point of being broken up by internal difficulties, all of which was, and is, perfectly erroneous.

The number of withdrawals at the time alluded to was but three, instead of five, as stated, and we presented on purely personal grounds—not having any relation whatever to differences of opinion that might or might not have existed in the Lodge at that time.

The report of the W. S., which will be presented at the next meeting of the Lodge, will show a large increase in the number of members for the present quarter, notwithstanding some have withdrawn and others have been expelled.

If these articles, especially the first one, are fair specimens of the encouragement which is to be given by those who claim to be on the side of sobriety and morality to those who are striving to lessen, in some degree, the amount of liquor-drinking which now disgraces our beautiful village, it will not be surprising if they become discouraged, give up the contest, and allow King Alcohol to have full sway.

Hoping, when our friend the *Messenger* has occasion to speak of the Good Templars again, that what it has to say will be more pleasing and satisfactory than its two last efforts in that direction have been, I leave the subject for the present.

GOOD TEMPLAR.

St. Albans, Oct. 23th, 1868.

**JACK THE GIANT KILLER REDIVIVUS.**—The *Spirit of the Times* says:—"O'Baldwin, the Irish Giant, who is considerable of a bully and entirely a fraud, fancied his dignity infringed upon recently, and threatened the infringer with a 'dash on his b—y nose,' to quote the phraseology of the fine old Irish gentleman. The young Knickerbocker thus threatened with the Giant's wrath did not seem to mind it much, but, on the contrary, landed heavily on O'Baldwin's head with a short cane and levelled him. One of O'Baldwin's henchmen attempted to protect his fallen chief, and was also sent to grass, or to the cobblestones of Houston Street. It is said that O'Baldwin is rather of the Noah Claypole order, and on 'the hinchinlay,' but this time, to use an expressive phrase, he 'picket up a nail.'"

**CALIFORNIA GOLD.**—On the 22d inst., the United States Sub-Treasurer at San Francisco shipped half a million dollars in gold to the Secretary of the Treasury at Washington, making a total of \$8,000,000 of gold sent to the Treasury of the United States since the 1st of January, 1868.

**WESTERN CATTLE.**—The State Department has received a despatch from the U. S. Consul at Toronto, Canada, relative to the removal of the prohibition on the transportation of cattle from the United States through Canada. The Consul encloses a letter from the Secretary of the Ontario Board of Agriculture, saying, an order in Council had been passed by the Government on the 1st of October, to the effect that, representations having been made that the Texas cattle fever had almost disappeared, the prohibition on the transportation of cattle should be removed from and after the 8th inst., under the inspection of duly appointed officers for the ports of Windsor and Sarnia.

The difficulty which existed between the Catholic Bishop of Chicago and his clergy is now at an end. The final decision has been given against the clergy and in favor of the Bishop. Archbishop Kenrick, of St. Louis, received orders from Rome to inquire into the whole matter and report to the Prefect of the Sacred College the result of his investigation. This he did, and sent on his report, which has been examined, and the 11 charges preferred against the Bishop are pronounced to be frivolous or, also, so that the journey of the Rev. Mr. McMullen to Rome will be in vain, as he must bow to the decision which is already promulgated.

United.

REVERDY JOHNSON'S FRATERNIZATION WITH REBEL SYMPATHIZERS.

NEW YORK, Oct. 25.

A special cable dispatch says: The loyal Americans and English friends of the United States are galled at the recent proceedings of Mr. Johnson in Liverpool, and they appear to think he is too anxious to go out of the way and make soft speeches, that he went too far in allowing himself to be introduced to Mr. Laird and greeting him in a friendly manner, and that he fraternizes too much with rebels and English enemies. It is claimed that he misrepresents the sentiments of the majority, and places the United States in a humble attitude.

The Blairs are fortunate in their invitations. Montgomery was invited to leave Mr. Lincoln's Cabinet, and Frank is invited to vacate his place on the Democratic ticket.

The *Round Table*, which has ably supported the Democratic ticket hitherto, now not only admits that the October elections have rendered General Grant's election certain, but it even says, "under the circumstances—assuming, that is to say, that Gen. Grant's election is now inevitable—we should be glad to see his majority a very large one. The more numerous that majority, the freer will be his hands while in the Presidential chair; and as, whatever else he may be, Gen. Grant is certainly a moderate minded and dispassionate man, a man who looks at things very thoroughly indeed before he makes up his mind about them, it is highly desirable, since he must be President, that the country should have the untrammelled advantage of these particular good qualities."

**THE WEST VIRGINIA ELECTION.**—On the 25th inst., the *Tribune* had received returns from three-fourths of the counties in West Virginia, which show a Republican majority of 4,327. The remaining counties will not, probably, reduce this below 4,000. All three Congressmen are Republican. Witcher's majority in the Third District will be about 500. In the Legislature re on joint ballot the Republican majority will be between 30 and 40.

## Personal and Political.

The demonstration of Boys in Blue in Boston, on the 25th inst., promises to surpass in numbers and brilliancy anything of the kind ever seen in this country. I will embrace many thousands of soldiers and sailors, and will attract an unusually large number of visitors.

**Before the Democracy of Pennsylvania before election.**  
You must carry the State.  
The Democracy to Blair, after election.  
We could not carry it, with you.

There are some good fellows in the Democratic party who have no business there. They will be a ways welcome to the Republican ranks. The present is a good time for them to "sway horses."

Seymour to Grant, 1863:

Where are your victories?

Grant to Seymour, 1863:

Where are your victories?

**An Appeal to the Union Soldiers and Sailors.**

The following has been issued by the committee to the members of the organization throughout the country:

HEADQUARTERS SOLDIERS' & SAILORS' NAT'L REPUBLICAN EXECUTIVE COMMITTEE, 446 14th Street, Washington, D. C. Oct. 19.

## Comrades:

You met the enemy in Maine and Vermont and struck him a telling blow. Again in Ohio, Pennsylvania, Indiana, and Nebraska, after an unprecedented struggle victory inclines in your favor. Rest not upon your laurels.

Your work is not complete until the last vestige of treason and secession is trampled out. Dismayed, demoralized, and broken, the enemy waits but your eager advance all along the line to surrender at discretion. On your success now depends the future standing of the loyal veteran soldiers and sailors; of the widows and orphans of your dead comrades. Bold riders of Sheridan, Wilson, Kilpatrick, and Pleasanton, your old commanders summon you again to the charge! Veterans of the Tennessee, the Cumberland, the Potomac, the James, the Gulf, and the Trans-Mississippi, gallant tars who sailed under Foote, Porter, Dahlgren, and Farragut, repeat your victories! Let no vacant place be found in your ranks on the 3rd of November.

The war record of the Democracy clings to it like the shirt of Nessus; it must be its shroud. But 17 days for earnest, effective work remain. It is not your efforts, and never again shall the hated flag of treason, secession, and national dishonor confront you. Dress your lines! Advance your colors! Let the bugles sound the charge! "Push things." An overwhelming victory awaits you.

By order of the Committee,

H. A. BARNUM,

Chairman.

One white man was accidentally killed by his own friends on St. Charles Street.

Coroner Roach, of the First District, held eight inquests this morning, on 3 whites and 5 blacks. Another negro is reported dead in the Second District, making 9 casualties.

The white men killed were each of them over a mile from the first disturbance when struck down. The disturbance began about 10 o'clock. At 11 o'clock, Canal Street was crowded with excited whites, who dispersed quietly when a squad of cavalry appeared on the scene. The stores on the corner of Baronne and Canal Streets are marked by bullets, as if a skirmish had taken place.

## Special Notices.

## Twenty-five Years Practice

In the Treatment of Diseases incident to Females, has placed Dr. Dow at the head of all the physicians making such practice a specialty, and enables him to guarantee a speedy and permanent cure in the worst cases of Suppression and all other Menstrual Derangements, from whatever cause. All letters for advice must contain \$1. Office, No. 9 Endicott Street, Boston. N. B. Board furnished to those desiring to remain under treatment. 236 Irving St. Boston, July, 1868.

**THE GREAT NEW ENGLAND REMEDY**  
Dr. J. W. POLAND'S WHITE PINE COMPOUND, Cures Croup, Whooping Cough, Diphtheria, Bronchitis, Spitting of Blood, and Pulmonary Affections generally. It is a remarkable remedy for Kidney Complaints, Diabetes, Difficulty of Voiding Urine, Bleeding from the Kidneys, and Gravel and other Complaints.

Boston, Jan. 20, 1868.

POLAND'S WHITE PINE COMPOUND.—After having given it a thorough trial we can confidently recommend Poland's White Pine Compound as a very valuable article for the cure of colds, coughs, and pulmonary complaints generally. We have known it to give prompt relief when all other remedies have been tried and failed. It is an article which in a climate so prone to sudden and severe colds as that of New England, ought to be in every family, and we are sure that those who once obtain it and give it a fair trial will not thereafter be willing to be without it. Boston Journal.

**A VALUABLE MEDICINE.**—Dr. Poland's White Pine Compound, advertised in our columns, is a successful attempt to combine and apply the medicinal virtues of the White Pine Bark. It has been thoroughly tested by people in this city and vicinity, and the proprietor has testified to its value from persons well known to our citizens. We recommend it to all those cases of disease to which it is adapted. It is for sale by all our Druggists.—[N. Y. Ind.] The White Pine Compound is now sold in every part of the United States and British Provinces. Prepared by Dr. J. W. Poland, 221 St. of Boston, Mass. 236-17

## DYSPEPSIA.

There is no disease which experience has so amply proved to be remediable by the

## PERVIAN SYRUP.

(A protected solution of the Protoxide of Iron) as Dyspepsia. The most inveterate form of this disease have been completely cured by this medicine, as ample testimony of some of our first citizens proves.

FROM THE VENERABLE ARCHDEACON SCOTT, D.D.

DENHAM, Canada East.

"I am an inveterate Dyspeptic of more than 25 years standing."

"I have been so wonderfully benefited in the three short weeks during which I have used the Pervian Syrup, that I can scarcely persuade myself of the reality. People who have known me are astonished at the change. I am widely known, and can but recommend to others that which has done so much for me."

ANOTHER CLERGYMAN WRITES AS FOLLOWS:

"My voyage to Europe is indefinitely postponed, and I have discovered the 'Fountain of Health' on this side of the Atlantic. Three bottles of Pervian Syrup have rescued me from the fangs of the 'fiend Dyspepsia.'"

A pamphlet of 32 pages, containing a history of this remarkable remedy, with a treatise on Iron as a medicine, will be sent free to any address.

The genuine has "PERVIAN SYRUP" blown in the glass.

Sold by all Druggists.

NOTICE.

THE St. Albans Bank of St. Albans, Vt., whose charter terminated on the 25th day of March, 1868, hereby give notice that it will redeem its outstanding bills, at its banking house, in the Vermont National Bank of St. Albans, for one year from the 25th day of May, 1868, agreeably to the following act.

St. Albans, Vt., May 20th, 1868.

An act relating to the redemption of Bank notes.

It is hereby enacted, &c.

SEC. 1. After the expiration of the charter of any bank chartered by this State, or the termination of the existence of any such bank, agreeably to the laws of this State, such bank may cause notice to be published in all the weekly newspapers of the county where such bank is located, for one year, setting forth that said bank will redeem its outstanding bills, the day of the expiration of its charter or the date of the termination of its existence, and a copy of this act; and upon publication of such notice, neither said bank nor its officers shall be liable to any action for the non-redemption for any of its outstanding bills, unless the same shall have been duly presented and payment thereof demanded within the year aforesaid, at the banking house of said bank.

SEC. 2. After the expiration of the charter, or after the termination of the existence of any such bank, as aforesaid, such bank shall cease to be subject to the operation, or liable to the provisions of the act, and its officers shall be liable to any action for the non-redemption for any of its outstanding bills, unless the same shall have been duly presented and payment thereof demanded within the year aforesaid, at the banking house of said bank.

SEC. 3. This act shall take effect from its passage.

Approved Nov. 19, 1865. 216-ly

MA. 20th, 1868.

**A LECTURE TO YOUNG MEN,**

Just Published in a Sealed envelope. Price 6 cts.

**A LECTURE** on the Nature, Treatment and Prevention of the various diseases of the male sex, including Syphilis, Gonorrhea, Stricture, Impotency, and all the diseases incident to the male sex, from whatever cause. The world renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Self-Abuse may be effectually removed without medicine, and without dangerous surgical operations, bleedings, instruments, rings, or cordials, pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically. This Lecture will prove a boon to thousands and thousands.

Sent under seal, to any address, in a plain, sealed envelope on the receipt of six cents, or two postage stamps. Also, Dr. Carter's "Pain-Expeller," price 25 cts. Address the Publishers.

CHAS. J. C. KLINE & CO., 127 Bowery, New York.

Post Office Box 4,592.

## WOMAN.

**FEMALES, OWING TO THE PECULIAR** and important relations which they sustain, their peculiar organization, and the offices they perform, are subject to many sufferings, freedom from these contribute in no small degree to their happiness and welfare, for none can be happy who are ill. Not only so, but one of these various female complaints can long be suffered to run on without involving the general health of the individual, and are more producing permanent sickness and protracted decline. Nor is it pleasant to consult a physician for the relief of these various delicate affections, and only upon the most urgent necessity will a true woman so far sacrifice her greatest charm, as to do this. The sex will then thank us for placing in their hands simple specifics which will be found efficacious in relieving and curing almost every one of those troublesome complaints peculiar to the sex.

**HELMHOLD'S EXTRACT OF BUCHU.**—Hundreds suffer on in silence, and hundreds of others apply vainly to druggists and doctors, who either refuse to treat them with the hope of a cure or apply remedies which make them worse. I would wish to assert anything that would do justice to the afflicted, but I am obliged to say that although it may be produced from excessive excitement of the powers of life, by laborious employment, unwholesome air and food, profuse menstruation, the use of tea and coffee, and frequent childbirth, it is far oftener caused by direct irritation, applied to the mucous membrane of the vagina itself.

When reviewing the causes of these distressing complaints, it is most painful to contemplate the attendant evils consequent upon them. It is but simple justice to the subject to enumerate a few of the many additional causes which so largely affect the life, health, and happiness of woman in all classes of society, and which, consequently, affect more or less directly, the welfare of the entire human family. The mania that exists for protracted education and marriage, causes the years that nature designed for corporeal development to be wasted and perverted in the restraints of dress, the early commencement of school, and especially in the unhealthy excitement of the passions, which, with the body half-naked, and the mind unduly excited by passion, reverting in midnight rest, the hours designed by nature for sleep and rest, the work of destruction is half accomplished.

In consequence of this early strain upon her system, unnecessary effort is required by the delicate votary to retain her situation in school at a later day, thus aggravating the evil. When the system is thus overtaxed, the mind is kept in a morbidly sensitive condition, and the mind is not constant restraint of fashionable dress, absolute forbidding the exercise indispensable to the attainment and retention of the calmness of mind, and the mind is thus exposed to the sudden change of temperature; the complete prostration produced by excessive fasting, must, of necessity, produce their legitimate effect. At last, an early marriage caps the climax of misery, and the unfortunate one, who so intemperately regards the pains and pleasures and necessities of her delicate nature, becomes an unwilling subject of medical treatment. This is but a truthful picture of the experience of the female sex in our young women.

Long before the ability of the female sex to perform the generative organs, they require an education of their peculiar nervous system, composed of what is called the tissue, which is in common with the male sex, and of the hips, evidently under the control of mental emotion, and associations at an early period of life; and, as we shall subsequently see, these emotions, when excessive lead, long before puberty, to habits which are the cause of the various diseases of the female sex.

For Female Weakness and Debility, Whites or Leucorrhoea, Too Profuse Menstruation, Excessive and Prolonged Periods, for Protrusion and Bearing Down, or Frigiditas Uteri, or the most perfect specific to insure the health of the female sex, and to ensure the health of the generative organs, they require an education of their peculiar nervous system, composed of what is called the tissue, which is in common with the male sex, and of the hips, evidently under the control of mental emotion, and associations at an early period of life; and, as we shall subsequently see, these emotions, when excessive lead, long before puberty, to habits which are the cause of the various diseases of the female sex.
